

FOLIO

Higher Education Campus Branding

Interface[®]

From dorm rooms to classrooms, your built space can show off school pride every day! This FOLIO from the Interface Design Studio illustrates how our modular flooring—carpet tile, LVT, and nora® rubber—works together to support campus-wide branding standards.

Here's what you'll find as you flip through this FOLIO:

- Inspirational product palettes in common school colors
- Floor design ideas for a variety of university spaces
- Rendered and finished floor plans that bring it all together

Follow the process from start to finish with a suite of products designed for elevated aesthetics and performance.

Interface Design Studio

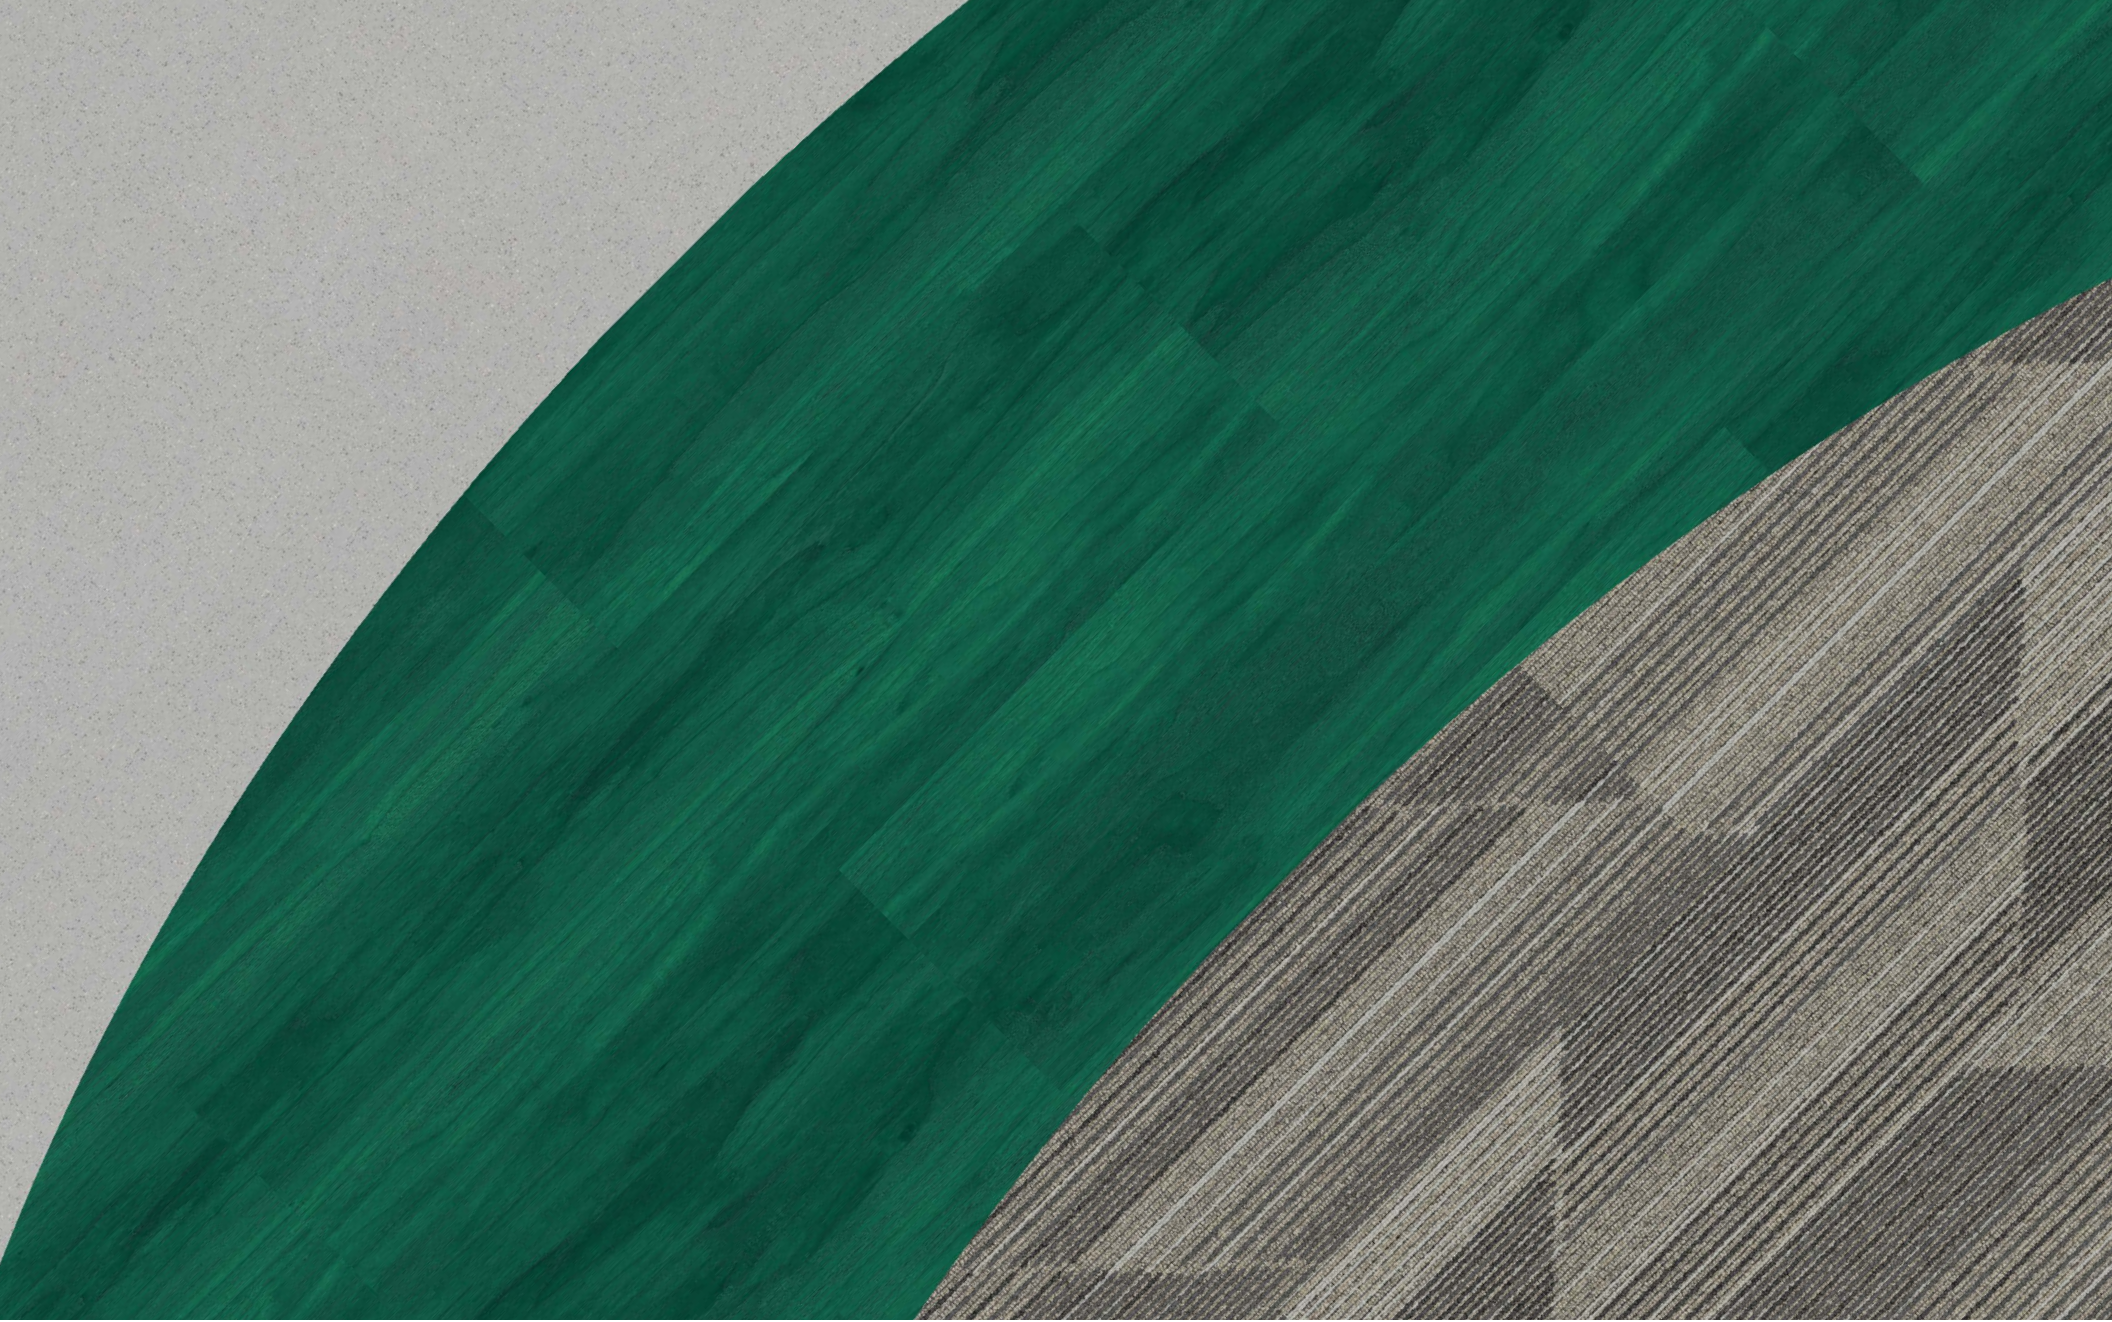

Your university has a vision for a modern learning environment. Working closely with you from concept to completion, Interface Design Studio helps universities create inspirational spaces that reflect your unique culture, distinguish your school and positively impact those who live, work and learn on campus.

Contact your rep to get started.

Carbon Neutral Floors™

When you choose Interface flooring, you're fostering a more sustainable environment to promote learning. This is because all of the flooring products that we sell—carpet tile, LVT, and nora rubber—are carbon neutral. And through our ReEntry® program, Interface reclaims used carpet tile and LVT to turn into new flooring over and over again.

Interface®
