COMFORT INN & COMFORT SUITES

Approved Choice Hotels Prototypes

Cambria Hotel & Suites
Comfort Inn
Comfort Suites
Mainstay Suites
Sleep Inn
Interface Hospitality is a Choice Hotels approved supplier of carpet tile and LVT. We are currently approved on the following prototypes:

- Cambria Hotel & Suites
- Comfort Inn
- Comfort Suites
- Mainstay Suites
- Sleep Inn

1. **6-8 WEEK LEAD TIME** for anything not already in stock.

2. **NO ROLL SIZES OR WIDTHS** to deal with. We come in boxes!

3. What about **UNIT COST**? We can compare the real cost of tile vs. broadloom for each project and show you the true savings.

4. **15 YEAR WARRANTY.** Say no more.

5. **SELECTIVE REPLACEMENT** means little to no disruptions to hotel operations.

7. **PROTEKT²** stain resistant technology. Keepin’ it real clean!

9. Order and installation is a breeze with our **ESTIMATES, SEAMING DIAGRAMS, AND RENDERINGS**.

10. All of our yarns are **100% SOLUTION-DYED NYLON**.

11. **VARIOUS TILE SIZES** make it easier to design/define spaces and sub-spaces.

12. Our **CARPET** and **LVT** work together in seamless integration, with no transition strips.

13. **TACTILES®** mean an easy, no glue installation!

14. We are **MORE SUSTAINABLE**: All of our products are **EPD** verified.

15. Interface Hospitality’s **REENTRY® RECLAMATION & RECYCLING** program results in our products having up to 80% recycled content, from returned/used carpet.

16. All Interface Hospitality carpet is climate neutral **COOL CARPET**, meaning no greenhouse gases!
1. **Lead Time**
   If not in stock, our lead times are 6-8 weeks and all products are manufactured in the USA, FOB Union City, Georgia.

2. **No Roll Sizes or Widths**
   There are no widths and roll sizes to deal with, which can often lead to hidden costs and unused material.

3. **Unit Cost**
   The unit cost is only part of the evaluation when comparing carpet tile to broadloom for your hotel. Waste is a big consideration with total project cost. We can develop project specific ROI’s to compare total project cost for your individual property.

4. **15 Year Warranty**
   All Interface Hospitality products are hard wearing, provide lasting protection against excessive surface wear, edge ravel, backing separation, shrinking, stretching, permanent soiling and staining.

5. **Selective Replacement**
   Whether you’re replacing a single guest room, a corridor, or an entire hotel, you can do so without disruption. Interface Hospitality’s selective replacement enables old flooring to be replaced quickly and efficiently any day of the week.

6. **Intersept®**
   Mold Protection no matter what’s spilled on the floor, our proprietary antimicrobial preservative, Intersept®, protects our modular carpet against the growth of odor-causing bacteria guaranteed. With proper maintenance, Intersept treated carpet safely and effectively inhibits the growth of mold and other bacteria so your floors are always fresh. All Interface carpet is standard with Intersept.

7. **Protekt²**
   Because stain resist technology - Protekt² - is built into Interface carpet tiles, a topical stain resist treatment is not necessary. The additional polymer is included when nylon is manufactured so it permanently increases stain resistance. We conducted stain tests on our products and compared them to products with a topical treatment. The results? Our uncoated fibers performed just as well as the treated ones. Additionally, the fluorinated chemicals traditionally used in stain resist treatments, when they do wash off, persist in the environment for thousands of years. With Protekt², you get permanent stain resistance, not permanent pollution.

8. **Ease of Handling**
   Carpet tile offers greater ease of handling, and installers have less liability related to possible mis-cutting of broadloom.

9. **Installation**
   Order and installation is a breeze with our estimates, seaming diagrams and renderings.

10. **100% Solution-dyed Nylon**
    Vibrant color that does not fade. All Interface Hospitality carpet tiles are made from durable, stain resistant, 100% solution dyed nylon. Offering superior color fastness and a wide array of colors and textures, solution dyed nylon is less harmful to the environment, using no water or toxic chemicals in the manufacturing process.

11. **Various Sizes**
    Using 50cm, 1m, 25cm x 1m and 50cm x 1m tiles allows for optimal pattern repeats, asymmetrical or symmetrical designs and color use. It also allows design to define spaces / nesting within larger areas.

12. **Integrated System**
    Interface modular tiles span a wide selection of designs that offer pattern, color and texture options for a myriad of flooring needs. Tiles come in a variety of shape and size modules that work seamlessly and interchangeably with each other. This compatibility allows for holistic flooring solutions with expansive design flexibility.

13. **TacTiles®**
    No Glue Installation. Installation or reconfiguration with our glue-free TacTiles installation system means there’s no glue smell and no drying time. Guests can use the room as soon as the last piece is laid and all they’ll notice is a beautiful floor. [https://goo.gl/syJN1B](https://goo.gl/syJN1B)

14. **Sustainable Choice**
    Environmental Responsibility. Interface Hospitality was the industry's first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). We now have published EPDs for 99% of our products globally. In addition, all of our products with GlasBac® and GlasBacRE backings meet NSF/ANSI 140 Sustainable Carpet Assessment Standard (SCAS) for carpet.

15. **Carpet Recycling Program: ReEntry®**
    Recyclable is Now a Reality. Through our ReEntry program and partnerships with our fiber suppliers and recycling centers throughout North America, separated Type 6 and 6,6 nylon are recycled into new 6 and 6,6 nylon, while separated GlasBac® and similar competitor backings are recycled into GlasBacRE non-virgin PVC backing using our Cool Blue™ technology. The result? Products with up to 80% total recycled content, including as much as 35% post-consumer content.

16. **Cool Carpet™**
    Our third party verified carbon offset program zeroes out all greenhouse gas (GHG) emissions associated with the entire lifecycle of your carpet. An independent testing program that identifies carpet and adhesives with very low emissions of VOCs to help improve indoor air quality.

17. **Dimensional Stability**
    Interface GlasBac® backing has been tested and proven in the marketplace for over 30 years. Engineered to provide superior dimensional stability, GlasBac® modular carpet tiles will not stretch or shrink when exposed to heat or cold, heavy foot or rolling traffic.

18. **Sound Absorption**
    Quite space is essential when people need to focus and concentrate. Sound absorption is therefore critical when colleagues need to collaborate without becoming a distraction to their neighbors. Interface Hospitality carpets provide high sound absorption and insulation.
