## A Foundation for Beautiful Thinking

Designs inspired by Nature have been around as long as we have. After all, what's more beautiful and inspiring than nature itself? There's even a term for our innate affinity to nature - biophilia. And design that incorporates natural elements - biophilic design - fosters the kind of creativity and beautiful...

17 SEPTEMBER 2015

## A mindful space for beautiful

As pioneers in modular carpet tile, we launched a completely new paradigm that informs our entire systems approach. We feel a kinship with the legendary mad scientist—always tinkering behind the scenes to come up with better ways of improving the status quo. This has led to great innovations in flexibility and sustainability. Modularity defines more than just our products: it's a metaphor for how we see the world, and a sure path to improving it.

Modularity: Our unique approach to business.

## Technical Information

All the details you need for easy installation and lasting quality of your Interface modular carpet tile. Technical information such as VOC's, ISO's and technical reports can be found here.

## Global Capabilities

Our innovative modular carpet tile is suitable for virtually every commercial environment. Beyond exceptional aesthetics and performance, customers look to us for more sustainable products and processes. On the journey to sustainability, we're striving for similar goals despite inhabiting different spaces. Because we serve all manner of institutions, we've become fluent in diverse business cultures. So we'll always understand you, wherever you're coming from.

We speak the many languages of business.

The proven performance and flexibility of Interface

What drives us? A positive vision of the future and the determination to make it come true. The moral courage to do what is right, despite all obstacles. An abiding commitment to show that sustainability is better for business. We believe that change starts with us and is transforming Interface from a plunderer of the earth to an agent of its restoration. Through this process of redesigning ourselves, we hope to be a catalyst for the redesign of global industry.

We are in the business of creating change.

We live where we work. Interface has people on the ground in six continents, with over 40 global showrooms and modular carpet tile manufacturing in Australia, China, the Netherlands, Thailand, the UK and the U.S. Our commitment to service means providing our international customers with a local team fluent in more than 40 languages. Living where we work makes us invested in the success of any given community because we are part of it. We're at home throughout the world by design.
