CONTENT IN DESCENDING ORDER OF QUANTITY

Summary of product contents and results from screening individual chemical substances against HPD Priority Hazard Lists and the GreenScreen for Safer Chemicals®. The HPD does not assess whether using or handling this product will expose individuals to its chemical substances or any health risk. Refer to Section 2 for further details.

Section 2: Content in Descending Order of Quantity

This section lists contents in a product based on specific threshold(s) and reports detailed health information including hazards. This HPD uses the inventory method indicated above, which is one of three possible methods:

- Basic Inventory method with Product-level threshold.
- Nested Material Inventory method with Product-level threshold
- Nested Material Inventory method with individual Material-level thresholds

Definitions and requirements for the three inventory methods and requirements for each data field can be found in the HPD Open Standard version 2.2, available on the HPDC website at: www.hpd-collaborative.org/hpd-2-2-standard

Section 4: Accessories

This section lists related products or materials that the manufacturer requires or recommends for installation (such as adhesives or fasteners), maintenance, cleaning, or operations. For information relating to the contents of these related products, refer to their applicable Health Product Declarations, if available.

NORA AC 100	HPD URL: https://www.nora.com/united-states/en/products/flooring-accessories-us/nora-ac-100
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: nora AC is a solvent-free, easy-to-use water-based acrylic adhesive that is used during flooring installation.	
NORA DRYFIX	HPD URL: http://www.nora.com/us/products/rubber-flooring-accessories/nora-adhesives/nora-dryfix/
CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES: nora Dryfix is a quick, easy, environmentally-friendly flooring-installation-tape system. nora dryfix allows business to continue as usual while flooring is being installed, resulting in significant operational savings.	
NORA STEPFIX	HPD URL: http://www.nora.com/us/products/stairtreads/stair-accessories/product/stepfix/

CONDITION WHEN RECOMMENDED OR REQUIRED AND/OR OTHER NOTES:

Used to install norament stairtreads, nora stepfix is odorless, free of solvents, formaldehyde and chlorine additives as well as non-flammable and freeze-thaw stable. The use of nora stepfix eliminates downtime since the stairs can be walked on immediately after installation.

The Health Product Declaration (HPD) Open Standard provides for the disclosure of product contents and potential associated human and environmental health hazards. Hazard associations are based on the HPD Priority Hazard Lists, the GreenScreen List Translator™, and when available, full GreenScreen® assessments. The HPD Open Standard v2.1 is not:

- a method for the assessment of exposure or risk associated with product handling or use,
- a method for assessing potential health impacts of: (i) substances used or created during the manufacturing process or (ii) substances created after the product is delivered for end use.

Information about life cycle, exposure and/or risk assessments performed on the product may be reported by the manufacturer in appropriate Notes sections, and/or, where applicable, in the Certifications section.

The HPD Open Standard was created and is supported by the Health Product Declaration Collaborative (the HPD Collaborative), a customer-led organization composed of stakeholders throughout the building industry that is committed to the continuous improvement of building products through transparency, openness, and innovation throughout the product supply chain.

The product manufacturer and any applicable independent verifier are solely responsible for the accuracy of statements and claims made in this HPD and for compliance with the HPD standard noted.
