Welcome to Interface Hospitality

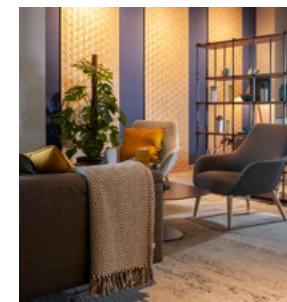

You welcome people every day, from all over the world. People who want the perfect experience. It's what makes hospitality both demanding and rewarding.

At Interface Hospitality we understand how a great product can make an experience more enjoyable. We also know a great product can make all the difference in running a successful business.

It's why we continue to pioneer a system of thinking that delivers superior flooring from LVT to carpet – all designed to be interchangeable, sustainable, replacable and seamless.

Making it easier for you to provide your guests with an amazing experience.

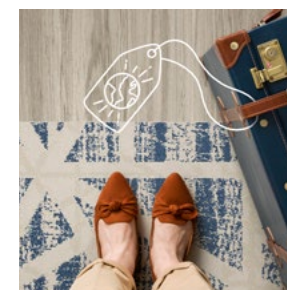

Design

Welcome to spaces people love to stay in.

There's many things that go into making a perfect guest experience. Not least the design of guest rooms and public spaces – and a big part of that is the floor.

With Interface Hospitality, you have modular flooring that enhances interiors in fundamental ways. So people stay longer, return, and recommend to others. Flooring that helps your guests feel good and connect to your brand.

Flooring designed with a level of quality, creativity, sustainability and flexibility to meet your changing needs – cost-effectively.

Design

Welcome to your ideas.

From public spaces, gaming rooms, corridors or private guest rooms. Every business is unique. Every space is different.

With endless patterns, colors, textures and flexibility. Interface modularity makes it possible to design your perfect space.

Mix-&-match, build your brand, and create spaces that are welcoming and unique for your guests to enjoy, and easy for you manage.

Modularity

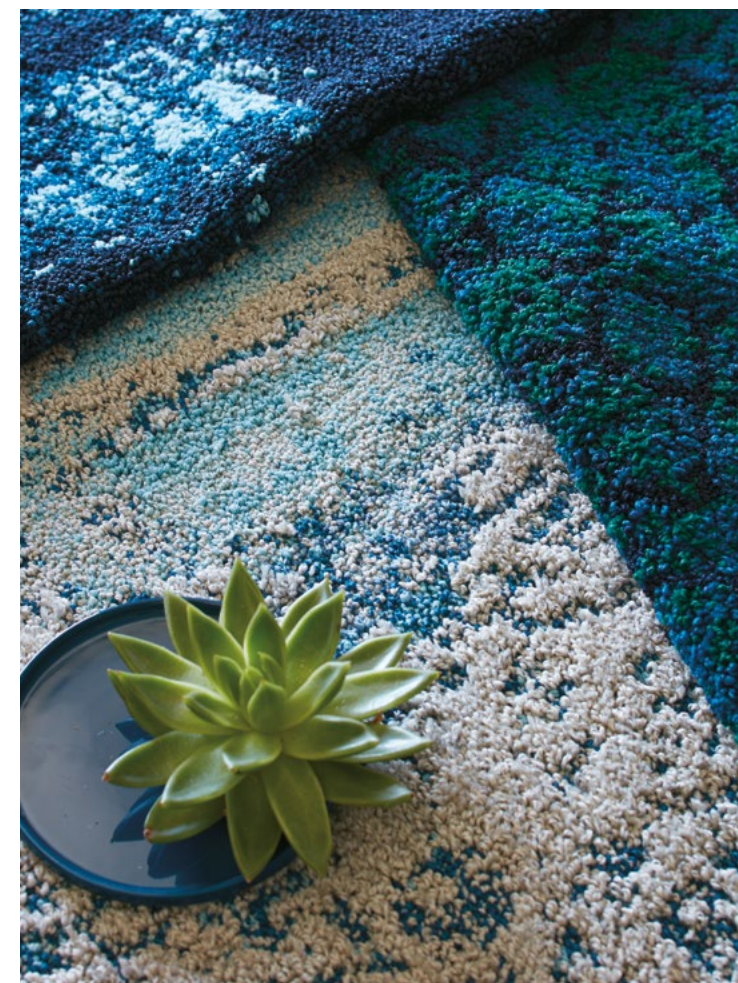

Welcome to easy-change flooring.

Flooring wears over time. Accidents happen.

Repairing broadloom is a specialist task that means disruption to guests, closed rooms, and lost revenue. With Interfaces' modular flooring, this isn't a problem.

You can select and replace any part of the floor with ease – switching out damaged or worn areas in minutes while leaving the rest alone.

Using our modular flooring system, you can create your unique environments, mixing texture, color and pattern to create spaces your guests will love to be in.

Sustainability

Welcome to achieving your sustainability goals.

Our business is based on setting, and achieving, ambitious environmental goals. And we help hotel businesses do the same – which means much more than asking guests to reuse their towels.

When you choose our product you're reducing your carbon footprint and creating spaces that improve your guests enjoyment and well-being.

All without compromising on quality, performance and design.

All our products Carbon Neutral

The highest standards didn't exist. So we invented them. Every flooring product you buy from us — whether carpet, LVT, or rubber — is 100% carbon neutral.

We are the only flooring manufacturer to guarantee all of our products are carbon neutral.

Performance

Welcome to superior performance

Our products are designed to last longer.
Because we care about the resources we
use. We believe in quality and performance.
Not false economies.

Take acoustics.

No one wants to hear footsteps in the corridor.
With the right choice of flooring, you can offer
your guests a more peaceful, relaxing stay.

Our modular carpet helps reduce the irritation
of poor acoustics. Even our LVT helps you
create more peaceful relaxing spaces.

Process

Welcome to a better way of working

Working closely with you and your consultants we will create a cohesive, vibrant and engaging experience for you and your guests.

No two projects are alike – every space has its own challenges that must be addressed in order to create truly beautiful design. However, creative floor designs can be a really impactful way to bring a design vision to life.

The role of the Interface Design Studio is to support you in finding beautiful, flooring solutions to help achieve your project requirements within your allocated budget.

Process

...thats always tailored to your requirements.

All the support we offer is bespoke to the project and the designer, which can include creating custom colors, products or mood boards. We can get involved in just a single phase of the process or offer design support from start to finish.

Our team from all over the world has a diverse design DNA. They know how to combine beauty with functionality and can help you translate your vision into stunning floor designs. Whether you're re-purposing an old floor, exploring and combining our collections, or creating a complete flooring concept, our designers will help you meet your design challenge. They create visualisations in 2D and 3D, and provide a design guide to make installation easy.

Global Capability

Welcome to a truly global capability.

We have seven manufacturing facilities strategically placed in key locations across the globe so you can get the same high quality Interface products nearly anywhere in the world. To support our deep commitment to an exceptional customer service experience, we have local teams in 40 showrooms, across 6 continents, fluent in over 40 languages. It is this accessibility and cultural understanding which has allowed us to earn the trust of hospitality customers worldwide.

Thank you
