

Designing for Distance

Interface®

Designing for Distance

This document gives you standard and custom options for wayfinding in spaces where people come together and need guidance in how to keep distance.

Indicators that give insight in the flow and proportions of the building.

By using the size of our modular product, in skinny planks 25 x 100 cm and squares 50 x 50 cm, it's easy to follow a grid that adheres the local regulations on social distancing.
