

An abstract graphic consisting of several thin, black, overlapping lines that create a sense of movement and depth. The lines start from the left edge and extend across the page, with some lines curving upwards and others downwards, creating a layered, architectural feel.

EMBODIED BEAUTY™ COLLECTION

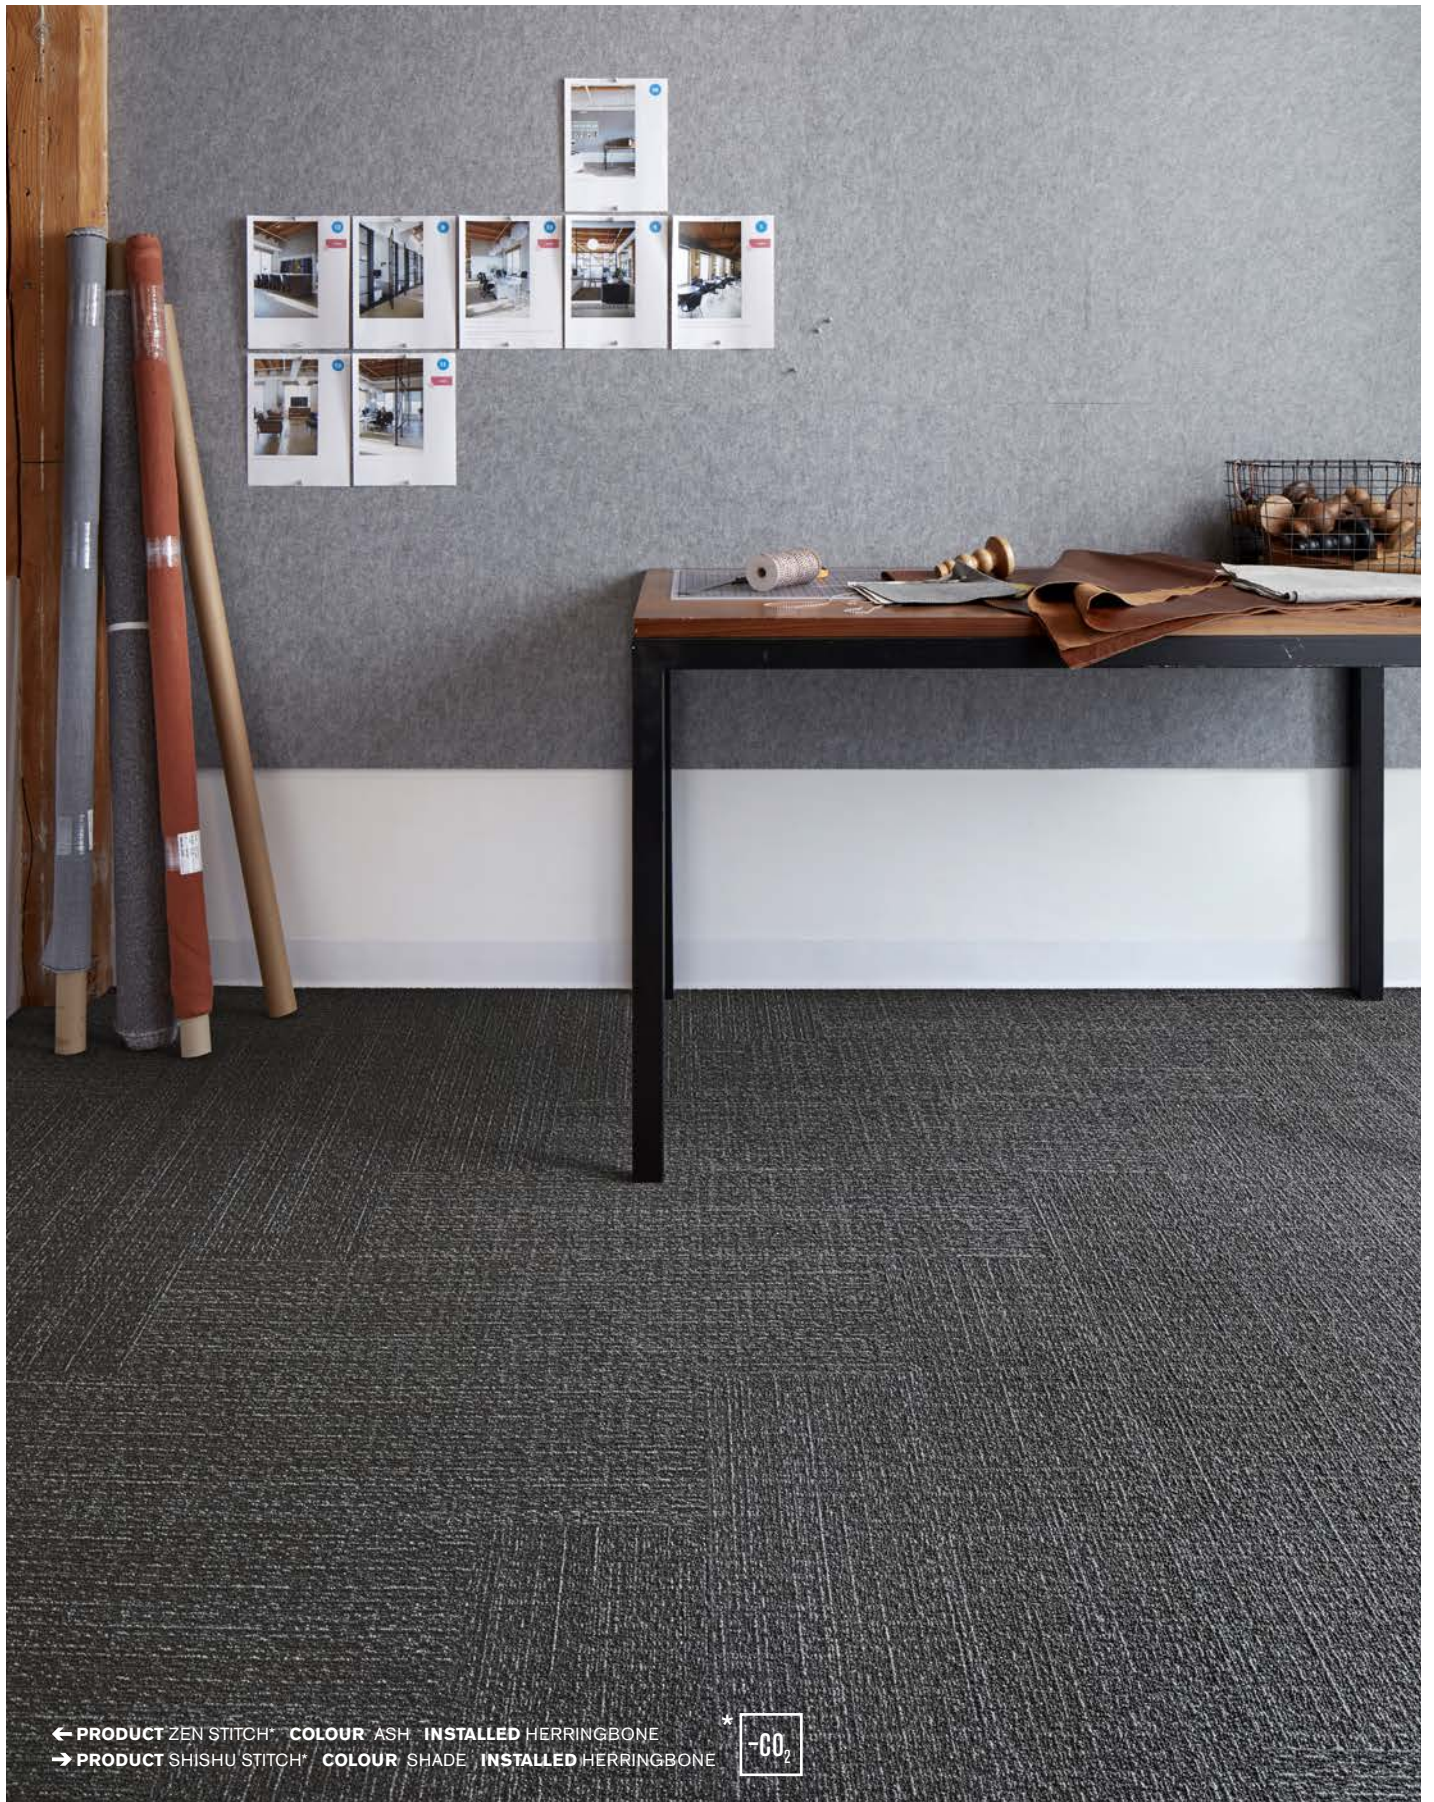

CHOOSE CARBON NEGATIVE FLOORING

→ How does it work?

Introducing our first carbon negative carpet tile in three unique styles: Shishu Stitch, Tokyo Texture, and Zen Stitch— all part of the Embodied Beauty™ collection. The Embodied Beauty collection is inspired by nature and manufactured to respect it.

The carbon negative materials in the CQuest™ BioX backing, in combination with speciality yarns and tufting processes, result in a carbon negative carpet tile. The finished product brings together durability, industry-leading design, and a negative carbon footprint that shows the pursuits of great design and sustainability are inseparable.

EMBODIED BEAUTY™ INSPIRED BY NATURE. DESIGNED TO RESPECT IT.

→ The Embodied Beauty collection lives up to its name and shows that the pursuits of beautiful design and sustainability are inseparable.

The collection features a range of carpet tile designs, including our first-ever carbon negative products.

Embodied Beauty collection is inspired by the Japanese aesthetics of minimalism, restoration, and the organic beauty of the natural world. From narrow monochromatic patterns to large scale graphic tufted textures, these styles all combine and contrast tastefully.

In addition to the three cradle-to-gate carbon negative products all the products in the Embodied Beauty collection are carbon neutral across their full product life cycle.

BEAUTY THAT

RESTORE

→ Ikigai, “a reason for being”, is a Japanese concept related to well-being and happiness through connection with others and with nature. Ikigai teaches appreciation for simplicity and acceptance of what is impermanent.

Inspired by these principles, Embodied Beauty™ focuses on bringing new life to the expected. The collection embraces calm, muted greys in warm and cool tones alongside natural colours for added dimension. Simple Sash, Sashiko Stitch, and Vintage Kimono evoke the delicate beauty of antique textiles and make ideal companions for Zen Stitch with its irregular gridded texture. Geisha Gather is a modern, woven graphic that invites you to create your own zen-like patterns.

Tokyo Texture and Shishu Stitch take notes from nature with organic texture and soft, subtle striae. Change your perspective while restoring your space and the planet.
