Interface Hospitality

Interface Hospitality

At your service:

Luxcierge™ is a holistic approach to designing for your project, taking into consideration everything from basic flooring requirements to aspirational goals.

You'll work directly with our experienced Interface Hospitality product designers to translate your narrative and ideas into successful, beautiful floors, and together explore texture, pattern, scale, contrast and colour.

You can take pride in knowing that your beautifully designed interior is grounded on a Carbon Neutral Floor™. Interface is the first global manufacturer to guarantee all of our flooring products are carbon neutral, worldwide.

To learn more, visit us at interface.com/Luxcierge, or contact your local sales rep.

PRODUCT: Custom
SIZE: 50cm x 50cm

Interface Hospitality

WHY MODULAR FLOORING?

Flexibility

Keep Your Floor Beautiful. Modular flooring allows you to play with pattern and design without having to special order sizes. And the same flexibility that lets you create your floor helps you keep it looking good because in-house staff can easily replace individual tiles that become damaged or heavily soiled—no down time or outside contractors required.

Intersept®

Mold Protection. Our proprietary preservative, Intersept, protects our modular carpet against mold growth and odor-causing bacteria — guaranteed. Intersept treated carpet, with proper maintenance, shows no mold or bacterial growth when tested per the ASTM E2471 Standard Test Method. Intersept is EPA approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

Sustainable Choice

Environmental Responsibility. Interface was the industry's first to earn an EPD (Environmental Product Declaration), which evaluates consistent factors based on full lifecycle assessment (LCA). In addition, all of our products with GlasBac® and GlasBacRE backings meet NSF/ANSI 140 Sustainable Assessment for Carpet.

CushionBac Renew™

Get Comfortable. Enjoy greater comfort underfoot and improved acoustics with our high performance CushionBac Renew backing. The 21 oz. felt cushion provides less resistance to footfalls and increased sound absorption to create a more comfortable environment overall. As one of our low carbon options, CushionBac Renew also offers a total product recycled content of up to 76% (up to 25% post-consumer content), and can be recycled into our GlasBac®RE backing.

TacTiles®

No Glue Installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering carpet tiles securely together to form a floor that “floats” for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

Less Waste

Save Money. Interface Hospitality's modular flooring averages just 3.9% installation waste compared to as much as 18% or more with patterned roll carpet. Use our non directional styles with an average of 1.5% waste and save even more. That means more of your flooring investment stays on the floor—not in a dumpster.

Carbon Neutral Floors™

Create a Climate Fit for Life. All Interface flooring sold globally is third party verified carbon neutral. We've taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder, including the emissions from raw materials, our manufacturing processes and product use to end of life.
